

## Chev's Trucking Additional Information

### Information requested by the Planning Commission:

- Define the intent of the business. Is it Dirt, Landscape/Nursery or storage?
- Define Landscape Material. Bulk supplies? How sold/anticipated selling method (i.e. open to general public, contractors only, etc.)
- Define Outdoor Storage. What is the intent?
- Proposed Operational Hours?

### Response from Chev's Trucking:

We want to keep the existing trucking company. We are also opening a Landscape Supply Yard that will sell landscaping material (mulch, compost, topsoil, sand, gravels, Non-living landscape material, etc) to the general public. We would operate from M-F 9-5 and Sat 9-12. The outdoor storage is a large gravel parking lot with assigned spots for trailers, boats, RVs, etc. for individual parking. This would be surrounded by security fencing with a security gate and code for individuals to enter and exit.
